

HANNAH LY

Thi Hanh Nguyen Ly, Vietnamese

I'm a hard-working and highly responsible master's student in bioinformatics. I'm eager to learn more about computational biology and its application in the healthcare industry. Although I do not have much experience, I am not hesitant to acquire any necessary skills to solve the problem you give me.

EDUCATION

SEP 2022 ~

MASTER OF BIOINFOMATICS (2ND YEAR STUDENT)

- Knowledge in Regulatory and Comparative Genomics, Evolutionary and Quantitative Genetics, Machine Learning, Statistics, Molecular structure and interactions, ...
- Skills in Python, R, Git, Bash, Java, SQL, Snakemake workflow management, ...
